

Youth Empowerment Workshops:

The Youth Empowerment workshops are a series of informative presentations designed to empower our youth with both resources and messaging. To ensure continue growth and minimize developmental backsliding, we put-on eight (8) monthly workshops throughout the tenure of the school-year, each with a different focus and empowering message to motivate our youth.

The workshops are aimed at providing our youth with two things: an empowering message on the importance of setting goals and persevering through adversity and an opportunity to shape their future based on what they have a personal interest in. Through these series of workshops our youth will learn character-building, financial planning, social etiquette and more.

Workshops are for ages 8-18 years old and will be age and/or gender specific (8-12 & 13-18) and will be held every 3rd Saturday of the month from October 2019 to May 2020 various locations and times.

Workshop Themes:

October
